INTERMEDIATE TO ADVANCED LEVEL GAS TRAINING TRANS/GENDER AFFIRMING SURGERY

MINIMIZE GATEKEEPING DURING
ASSESSMENT, SURGERY-SPECIFIC INFO,
PSYCHOLOGICAL FACTORS, & AFTERCARE
THROUGH A LIBERATION LENS

FOR BEHAVIORAL & MENTAL HEALTH
PROVIDERS, CLINICIANS, & TRAINEES!

LIVE on 12/16/22!

FRIDAY, DECEMBER 16TH
11:00AM EST - 5:00 PM EST

Economic Justice Tiered Rates:
\$150-250, plus
limited scholarship spots (\$75+)

Learn more about the most common procedures that you'll be asked to write letters for, understand psychological and other risks/complications that clients might worry about, & aftercare considerations.

Approach the assessment from a lens of gender & racial liberation, hear case examples, see sample templates for various procedures, & explore questions related to common challenges and barriers.

A recorded option will be available for purchase later via CE21. (Quiz required for Home Study CEs.)

QUESTIONS | Email: addyson@wholeheartedpsych.com

LEARNING OBJECTIVES:

- ★ 1. Identify 1-2 key factors in navigating the assessment process generally, regardless of procedure or knowledge.
- ★ 2. Describe an example distinguishing between appropriate discussions re: the surgical procedures, risks, etc. versus questions that are better for the surgical consultation.
- ★ 3. Describe the importance of being aware of privilege and power dynamics given the historical oppression and gatekeeping for the trans community.
- ★ 4. Discuss 2+ psychological worries/risks related to the surgery process & recovery.
- ★ 5. Distinguish between phalloplasty versus metoidioplasty procedures.
- ★ 6. Distinguish between double incision versus less-invasive chest procedures.
- ★ 7. Discuss one way you might help clients to think outside of the binary box in terms of what they want their surgical outcomes to look like and feel like.
- ★ 8. Discuss 2+ important considerations for each of the following surgical procedures: chest mastectomy, phalloplasty, and vaginoplasty.
- ★ 9. Identify a key component of aftercare for optimal results with the following: For double mastectomy & For inverted vaginoplasty
- ★ 10. Identify 2+ options to seek further consultation, training, and support when navigating the assessment process, writing letters, supporting clients considering surgery, and navigating various challenges.

"This program is co-sponsored by the New Hampshire Psychological Association (NHPA) and Wholehearted Psych. NHPA is approved by the American Psychological Association to offer continuing education for psychologists. NHPA maintains responsibility for the program.

This program offers continuing education credits which are accepted by the State Board of Mental Health and the State Board of Psychologists for all N.H. licensees.*Registrants responsible for confirming individual state board CE requirements. NHPA CE Credits are approved through the APA for psychologists, as well as many other state boards, including but not limited to NH LICSW & LCMHC; VT LICSW, LCMHC, & LMFT; MA LICSW & LCSW; and CT LCSW & LPC.
